Description

The **Billboard** ad unit is an attention-getting unit creates a “wow” factor with customized rich-media animations.

The ad unit remains in a persistent location directly below the site’s primary navigation. It appears full size on page load and remains expanded until the user closes it, if they choose to do so.

This large canvas commands full attention while captivating and engaging the consumer with your brand message.

Note: Billboard does not serve on the homepage. For homepage, the ad solutions will be the Homepage Hero.

Media Specifications

Duration	1 month
Geography	National
Ad Serving	Third Party
Lead Time	10 business days
Device	Desktop Tablet
Frequency Capping Details	<ul style="list-style-type: none">• For direct buys, frequency capping is <i>unavailable</i>• Through programmatic buys, buyers <i>can</i> frequency cap on their end, which would include Run of/Audience Targeting buy types
LEAN Guidelines	<p>All Ads should adhere to LEAN Ad Standards as defined by IAB New Ad Portfolio.</p> <p>Additional details</p> <p>The new guidance creates a more positive user experience by maximizing page load performance. This should also improve the performance of the ad. In addition to new initial load and sub-load max weights, the LEAN guidance dictates the following:</p> <ul style="list-style-type: none">• Use lightweight file loads during initial load of the page• Eliminate or minimize render blocking scripts like CSS, JavaScripts during initial load• Use sub-load for rendering ad experiences that require heavy file weights• Minimize number of files requested during initial load. The maximum number of Initial Load file requests allowed is 10• Make user initiation required for ad functionality that needs large file downloads
